

e of all Kinds of Winter Goods

Difference in Price as well as Quality! See?

QUALITY alone if the price is high is better than poor quality. But when you combine with extreme low prices you set the world to thinking. You set the other fellows to scratching their heads, wondering how the influence of past mistakes can be killed, and they invariably take the stand of quality, but you must pay the price except on a few leaders, to tell you on.

Our modern prices, methods,

have wrought a complete change with many patrons of Jasper, and we expect to keep up the bombardment in order that all shall have a chance to buy good goods, shorn of the old regular's high profit.

Here is an illustration how some people buy: A full-fledged drummer blew in last week to sell us some "Iowaia" decorated semi-china ware, that we were low on.

He represented one of the best importers we know of. His flat price f.o.b. cars at East Liverpool, O., run on dinner plates \$1.20 per dozen. Then we must add about 12 per cent for freight and cask charges, which would make them cost us \$1.34 per dozen, then we would have to add our profit to the above to get what we could sell them at. Our price on the above goods to you is \$1.16 per dozen, and we have added the freight and profit. The drummer thought I was mistaken, so he and

I being from Missouri I showed him my bill. He says you will have to continue from the man you are buying from, I don't understand the difference and won't pretend to. That's the way with many people, they don't understand how we do it but what's the difference, so we sell you the best goods on earth, including Home Copper ware at less than others ask, and this should be reason for you to get it at

J. E. Hull went to Carthage last Tuesday.

Thos. Kunkler spent several days at Pittsburg, Kansas.

Lee Coiner is working for Z. C. Davis.

It's your "move." Look them up. It

LETTER Mr. George Andrews.

Jasper, Mo.

Dear Sir: The late president of the Colorado River Bank at Brewster, N. Y. built the finest house in all that region in 1884, and painted it with lead and oil at a cost of \$100—the house cost \$11,000.

In 1887—three years—he repainted it with Durox at a cost of \$500. In 1897 this paint was in good condition.

Earnest Griffin has been on the sick list. Also Otto Robinson is sick.

Miss Grace Wampler has been teaching at Sheridan while Mr. Sutrell moved to Jasper.

John Thompson west of Cary is moving on Mrs. Sweet's place.

Mrs. Ann Wampler has returned from Warrensburg where she spent a happy month's visit.

Dublin Items.

E. Hoffman is papering the Moran house this week.

The young folks of Dublin had a dance at St. John's, Tuesday night.

St. John's are moving off of the Martin farm and Bert Walters is moving on it.

While St. John's were loading their wagon Wednesday morning the horses started and ran down to the corner, where they were stopped by the Kins. Said boys. There was no damage to speak of.

\$1,000.00 Challenge.

Every prospective buyer should certainly investigate the propositions of N. Johannus & Sons. Then challenge Mail Order Houses and all other Competition. They are responsible for \$100,000.00 and are certainly prepared to prove their claims. For forty years they have been doing a successful business in South-West Mo.

Their "brands" are above suspicion. Their "prices" below all suspicion. They are not after any sympathy but are after your business, squarely on the merits.

It's your "move." Look them up. It

THE WELD THAT HELD

"PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A WRAP holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT; examine the joint.

STAYS CANNOT SLIP. They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity.

"PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

MR. FARMER: LISTEN, NOW. Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this:

That the wires are not injured at the joints. That the fence is perfectly adaptable to uneven ground. That the stays will not separate from the strands. That the fence is not right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely guaranteed.

The "Weld" is the secret of the success of the fence. It is the result of the unique electrical welding process.

It is the result of the unique electrical welding process.
